

Cosmetic Image *Nurses*

AN INTRODUCTION TO OFFSITE NURSING

COSMETIC IMAGE NURSES

Welcome to *Cosmetic Image Nurses*

Discover convenience and excellence through our Cosmetic Image Nurses offsite injectables nurse program—a response to modern aesthetic demands.

Our licensed nurses specialise in cutting-edge injectables, addressing everything from wrinkles to revitalisation. By collaborating with you, we tailor treatments to individual preferences, ensuring both natural results and client satisfaction.

This program not only attracts new clients but also streamlines your offerings, turning your salon into a one-stop beauty destination.

Dr Ingrid Tall
CEO & Founder

How it *works*.

Cosmetic Image Nurses offers the expertise of an Advanced Registered Cosmetic Injectables Nurse exclusively for you.

You have the flexibility to opt for weekly, fortnightly, or monthly visits from our professionals, catering to your client's preferences. This service comes at no expense to you, and our nurses will bring their own POS systems. Your role simply involves scheduling your clients on the days when our nurses are available on-site.

Through our diverse team of offsite nurses and services, we meticulously match the most suitable nurse to your clinic and patients. This empowers you to broaden your range of services, establishing an all-encompassing beauty hub within your own space.

What does it *cost*?

The advantage of having an injectables nurse available on-site is that it won't incur any costs for you. We handle expenses by subtracting the product costs from the day's earnings, and then dividing the profits into three portions.

As a result, you will be entitled to around 20% of the day's profits.

For instance, if the End of Day (EOD) total is \$10,000, after costs are removed, your payment will be between \$1,600 - \$3,000.

This payment will be processed and deposited into your account within 2-3 business days.

What treatments are *available?*
